Fixture Delivery and Tracking from out the door to the store!

Avoid cancellations, rescheduled category resets and lost sales due to missing hardware, materials or deliveries!

- Manufacturers spend millions of dollars on fixtures lost at stores due to lack of accountability
- RMSI offers full logistics solution for your fixtures, racks and POS materials
- Just in Time, accurate hardware delivery with **digital proof** of delivery including signature, name, date and time stamp.
- Custom picking and packing
- Full freight services
- Complex racking fixtures installation expertise
- Continually updated logistics routing software used for efficient routing and to minimize costs
- Ability for logistics personnel to make adjustments at store level

Audit From Your Desk!

- 24 / 7 Client web site access to monitor project activity
- "Proof of Performance" photo documentation
- Exception reporting available and can be pushed to client for timely business decisions
- Exportable data for all current and archived projects
